

Step 2 Select Appropriate Scale

U.S. Fish & Wildlife Service
Conserving the Nature of America

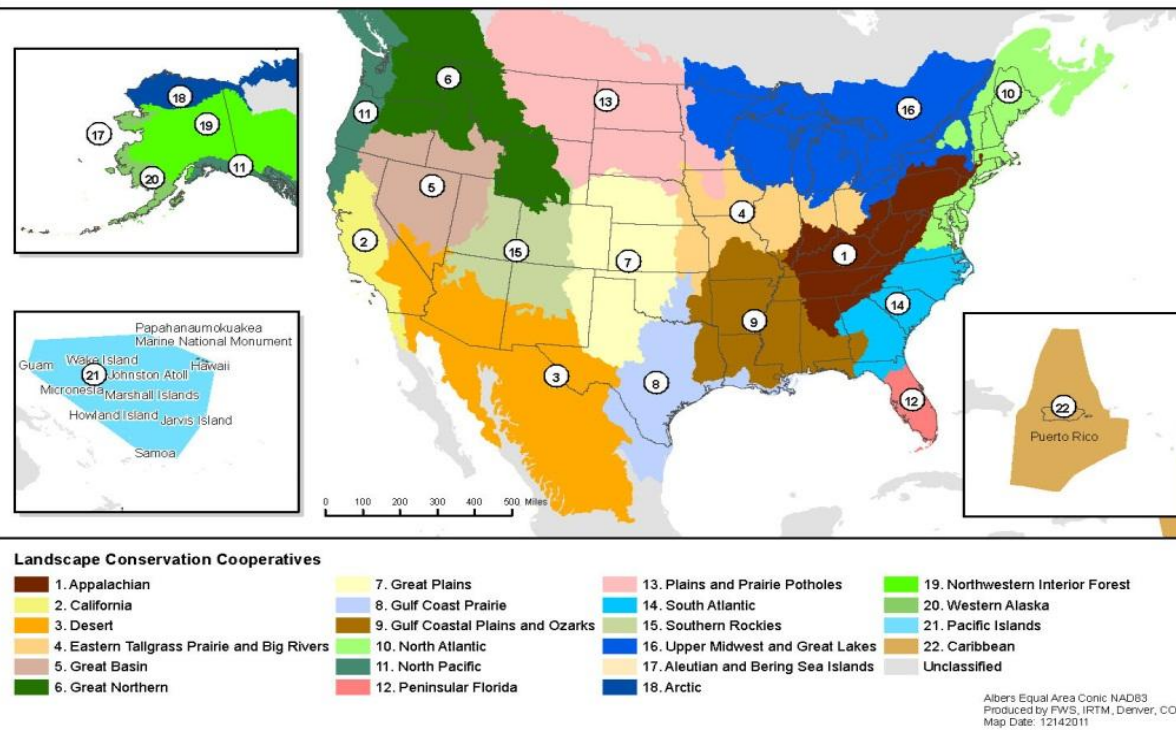

Learning Objectives

- *Describe potential geographic units that could be used to aggregate/subdivide Landscape Conservation Cooperative geographies, including aquatic frameworks*
- *Explain the surrogate zone concept*
- *Discuss strategies to handle species with ranges greater than selected geographies*

LCCs

Landscape Conservation Cooperatives

U.S. Fish & Wildlife Service
Conserving the Nature of America

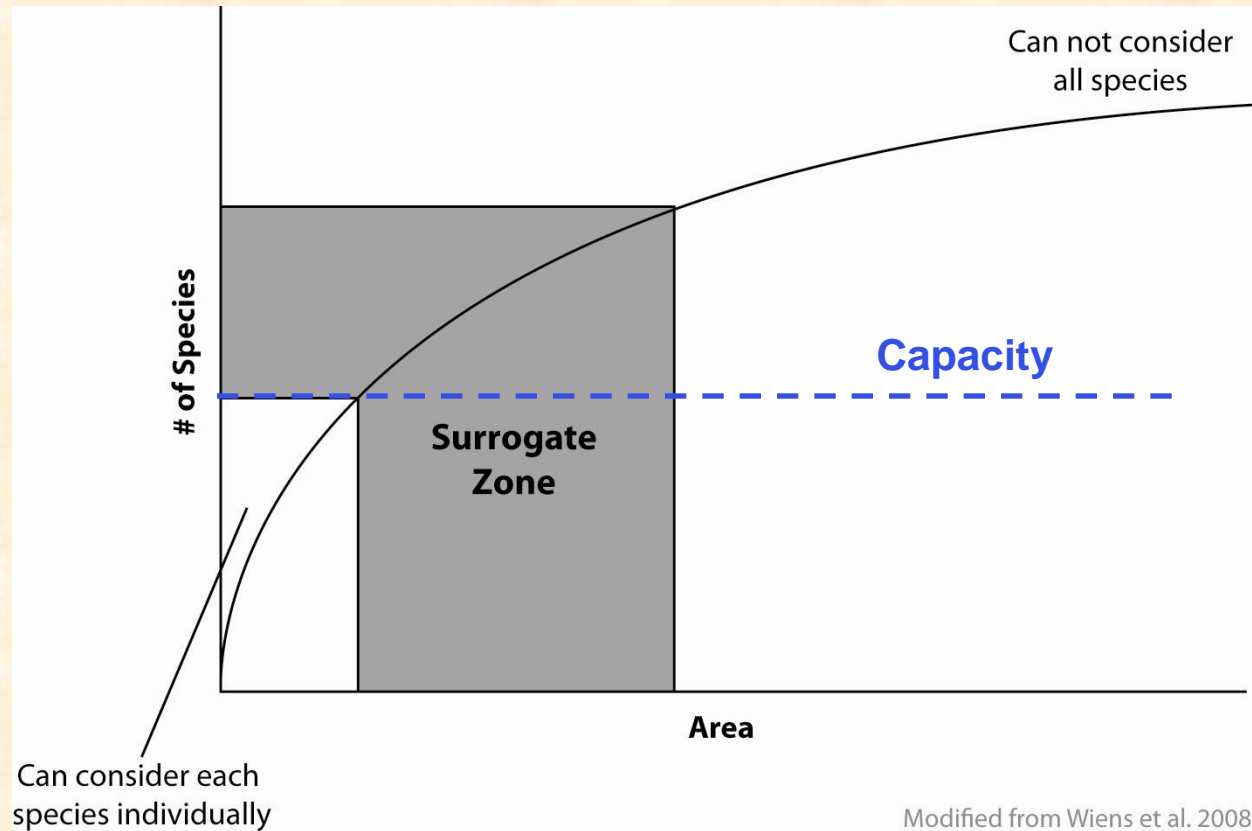

Quick brainstorm

- What factors influence how we might select an appropriate scale for this process?

Surrogate Zone

U.S. Fish & Wildlife Service
Conserving the Nature of America

Reminder

- Document, document, document!!!!
 - Assumptions
 - Decisions
 - Data sources
 - Description of boundaries
 - Characteristics of areas selected

Activity

In groups, discuss:

What are strategies to coordination across the LCC geographic framework when species ranges span outside individual LCC boundaries?

U.S. Fish & Wildlife Service
Conserving the Nature of America
